" What a man can do a woman can do better"

At the end of the my FLEP Coop mentorship this is what I wish to have achieved:

- *Improved communication skills & free dialogue*
- *Clearer professional aspirations for leadership*
- *Cleared network and analyse change of opportunities in the current male dominated leadership structure*

My leadership aspirations in the co-operative sector are:

Having women in Coop leadership provides platform for women to air their views and challenges and provide solutions. I aspire to be a manager in the coming years.

These are my most prevailing challenges I experience in co-operatives:

Women lack capacity building on matter Cooperatives and there is a need to expose women on policies governing cooperatives.

This is why I want to be a leader in the co-operative space:

Am a passionate and believe that I will be a leader through this amazing mentorship programme
